| Gender | Status     |        |
|--------|------------|--------|
|        | Not Placed | Placed |
| F      | 28         | 48     |
| M      | 39         | 100    |

Count of PrePlacement.csv  
28 100

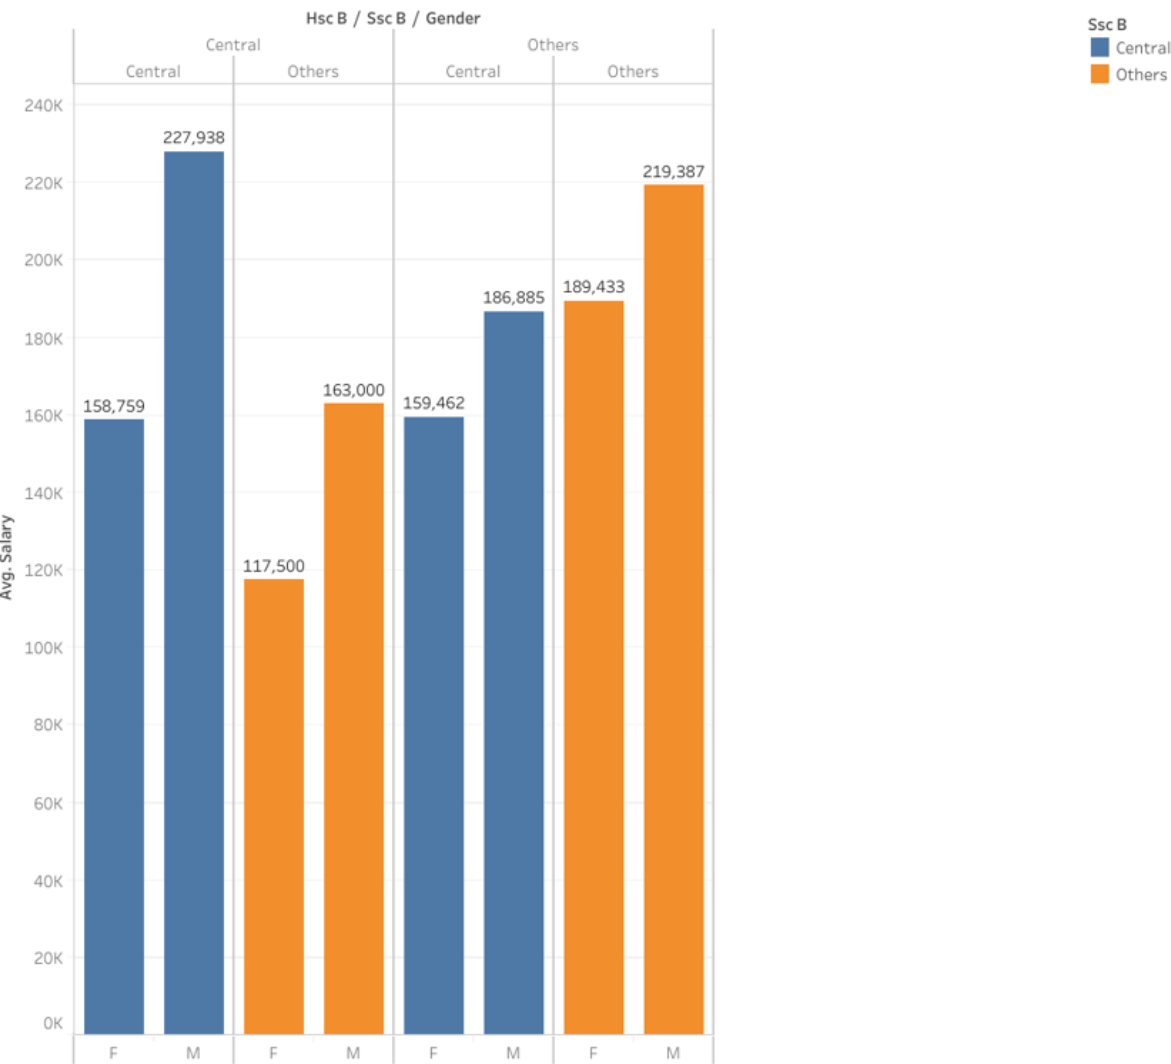

## Salary vs Work Experience

Candidates with prior work experience tend to receive higher average salary offers, indicating experience plays an important role in compensation.

# Salary vs Academic Board

This comparison shows salary variation across different academic boards, highlighting that multiple factors influence compensation outcomes.

# Salary vs Specialisation

Salary levels vary across specializations, suggesting that domain choice has an impact on average compensation.
